Public Resources for COVID-19

KLICKITAT COUNTY - Each day brings new information, guidance and facts. The resources available to all of us can be found in large quantities. However, keeping track of those resources and deciphering what is legitimate information and what we should not trust as factual information can be cumbersome. We have compiled some great resources that all Klickitat County residents should turn to for the most up to date information.

Washington State's Governor Jay Inslee has issued guidance almost daily to the residents of Washington. To access the governor's media releases, live coverage, additional clarifying guidance and much more please go to <https://www.governor.wa.gov/>. There is now a Washington State webpage where all information is being compiled and it is a great resource for everyone. It has links for almost anything you may want or need to know. That direct link is <https://coronavirus.wa.gov/>. The Centers for Disease Control and Prevention (CDC) is always going to have accurate up to date information and it can be found at <https://www.cdc.gov/coronavirus/2019-nCoV/index.html>.

For Klickitat County information the Public Health Department is keeping their webpage updated daily. All local media releases can be found at <http://klickitatcounty.org/289/Public-Health>. The case tracker for our county is on the Public Health COVID-19 page at <http://klickitatcounty.org/1187/COVID-19>. The case tracker is updated twice daily and includes zone information. There is also a new tool for Apple iPhone users to help people determine if they need to seek care for COVID-19. Get the free app from Apple's App Store, or visit <http://www.apple.com/covid19>. You can also follow our Facebook pages at Klickitat County 911 Dispatch/Emergency Management, Klickitat County Health Department and Klickitat Valley Health.

The Klickitat Emergency Operations Center Essential Needs Delivery Service is now being provided in collaboration with WAGAP. This service is intended for those in quarantine, isolation, and high risk/vulnerable populations. In order to keep you home and safe we have first responders that will deliver food and medication upon request. To access this service community members should contact the WAGAP Call Center (509) 493-2662 or Toll-Free (800) 755-1192 for guidance.

Collaboratively, we are all doing our best to keep you informed and up to date. Information is updating not only daily but sometimes by the minute, having the tools and resources available is key in slowing the spread of COVID-19.
