

FAMILY

Recycled Art Contest

NASA@
My Library

As NASA explores more of outer space, what will we find? More planets, new species? Show us what you think will be out there by using recycled or reused materials to make a 3D sculpture. Then share it with Klickitat County for display in August.

Three categories to choose from:

- Kraken
- Planets
- Creatures

July 1–3: Pick up your free starter kit at Goldendale Community Library. Art supplies will also be available.

July 25–Aug 1: Submit your finished art at the library.

Aug 1–31: Art will be on display at the library and the Solid Waste booth at the fair.
